

May 8-9 are the dates for the 10th Nordic meeting

The meeting is organized on behalf of the Swedish Shoulder and Elbow Society (SSAS) and the conference is a leading event for shoulder and elbow specialists in the Nordic region and for the Nordic national societies. Both orthopedic surgeons and physiotherapists from all Nordic countries are invited to this highly professional meeting.

This time Stockholm will be the city hosting the event, and the venue is Clarion Hotel Sign in the center of town, just a 5 minute walk from the central train station. The local hosts and organizers are Danderyd Hospital and Capio S:t Göran Hospital.

The theme is **“Today and tomorrow”** with the latest research and the hottest trends in our field. The Nordic countries are known for their high-quality research and prosthetic registers. We gather the best in the Nordic region together with prominent international lecturers for a meeting at the absolute forefront. Basic and traditional research are the steppingstones, but Artificial Intelligence and Augmented Reality will soon be here. What does this mean for our field? Join us in shaping the future!

There will be hotel rooms offered at a good rate at Clarion Hotel Sign. The dinner, to which everyone is invited, will be held at the same hotel.

Save the dates in your calendar already! We will keep you posted with more information. The preliminary program together with possibilities to sign up for the conference at early bird prices will open in November. You can still see the program and the exhibitors at this year’s Swedish meeting in Helsingborg at www.ssas-congress.com

The organizing team from Danderyd Hospital is Björn Salomonsson, Erica Arverud, Susanne Ahlström and Lina Nyberg. From Capio S:t Görans Hospital Hampus Mörner, Helena Boström Windhamre and Maria Stauffer.

Welcome to Stockholm in 2025!
